16+ Years of Experience | dlpnair4ever@gmail.com | +91 9427539656

PROFESSIONAL SUMMARY

Seasoned UI/UX designer with a track record of success in the product and digital communication sectors. Competent in creating visually striking user interface designs, logos, and user experience designs. Focusing on UI/UX designs, wire framing, prototyping, interaction design, and front-end development for web and mobile platforms. Outstanding communication abilities and competence in managing clients and working with cross-functional teams.

WORK EXPERIENCE

Flydocs India PVT LTD

UI Designer (Product)

May 2022 – June 2025 | Remote, Full time

Focus on creating user-centered designs for a product that meet both business and user needs. Collect and evaluate user requirements with direct Client Interactions, Product Managers, and Customer Experience team. | Use storyboards, process flows, and sitemaps to illustrate design concepts. | Creating Design system and component library | Create UI mockups and prototypes that clearly show how sites work and behave. | Make unique graphic designs and Iconography. | Rough drafts are prepared and presented to internal teams and key stakeholders. | Identify and resolve UX issues. | Make layout changes based on user feedback | User testing | Collaborating with a quality analyst team to review the developed product from a UI/UX perspective.

Investis Digital Corporate Communications PVT LTD.

UI Designer (Digital Communications)

March 2014 - April 2022 | Vadodara, Gujarat, India, Full time

My responsibility is to take brief/details from Client/Client Managers or Project Managers and then working on the strategy and flow. Searching some inspirations. Creating Mood boards and presenting them to the client. Then creating pencil sketches/low fidelity wireframes - mockups. Finally, after sharing with the team for their internal comments, create design system, component library and concepts as per the details. After creating the final concept we pass it through our team for usability testing and then finalize the concept. Then we pass it through the developers for feasibility check before sending it to the client for final approval. We are also responsible for UI/UX testing of the developed product before final release/client review.

Dots And Coms

Web Designer and Front-End Developer

December 2010 - March 2014 | India, Full time

My responsibility is to take brief/details from client or project managers - Doing strategy - creating pencil sketches/low fidelity wireframes - mockups - and then create concepts as per the details. Convert the approved concept to html and handing it over to the developers.
